

# 2022 EUROPEAN CATALOGUE

*Made by anglers for anglers*

A big welcome to the 2022 Dynamite European catalogue.

As always, a very grateful thank you to all our customers that continue to support us.

For the coming season we have some exciting new products for all anglers including new feeder, specialist carp & catfish baits. For the carp angler we have preservative-free particle hook baits including Black Tiger Nuts, Naked Tiger Nuts and Boosted Peanuts. There're some new liquids including Hydrolysed Tuna Extract and a Shrimp version plus Belachan Liquid Carp Food. For catfish fans there are new Belachan Hook Pellets with matching Fluro pop-ups and plug.

For the feeder and match angler we're really excited to introduce our new Swim Stim 'Feeder Mix' groundbaits. These are available in 1.8kg bags in Betaine Green, Red Krill and F1. For fans of our Marine Halibut there is a new sweet fishmeal version of our popular original groundbait.

You will have noticed some of our packaging has changed on some of our best-selling products. As anglers we all have a responsibility to the environment and we have been working hard to find a solution for more environmentally friendly packaging. You will find all our Swim Stim groundbaits and pellets are now in recyclable packaging. The packaging may be slightly different but you can be assured the recipe remains the same quality as always!

We wish you the best for the coming season - tight lines.

*Team Dynamite*

# HIT N RUN Rob Hughes

“Essential pop-ups for all anglers”

Rob Hughes

- An exciting range of pop-ups and wafers with unique flavours and essential oils
- Designed in conjunction with Rob Hughes - utilising years of experience and his underwater studies
- Includes essential oil flavour booster

### HIT N RUN - COLOUR CHART

- Always think about the colour underwater
- Fish see colour - so what colour you use matters
- Colours change in different conditions and background
- Fluoro colours tend to 'grab' ultraviolet light making them more visible in darker conditions

**PINK** Perfect on light silty bottoms, also if the water is green  
**WHITE** Stands out well in clear shallow water, also works in deeper water  
**YELLOW** Brilliant in deep water, also a good all-rounder  
**RED** The most visible colour at all depths
