OPPORTUNIST XTND

OPPORTUNIST XTND+ SERIES RODS

Having one chosen transport size makes it easier than ever to become a true Opportunist angler. These double-extending telescopic rods offer the shortest pack down size for a two-piece 12' rod we can think of. For anglers who embrace the Opportunist style of fishing, we've developed this hardcore range of rods that aren't additional rods in your armoury, they're your first choice for big fish hunting. Designed to work just as well on running water as stillwaters, the Opportunist XTND+ rods combine high-modulus carbon blanks with Minima-style guides, slim cork handles and anti-frap tip guides. To add to the existing series of 10' rods that pack down to the same size as an 8' two-piece rod, the new 12' versions are double-extending telescopic, meaning they still have a compact transport length. All can be used in our Opportunist luggage series easily and effectively.

- XTND+ packdown length 50"
- Opportunist XTND+ - 12' 1.75lb
- Line rating 6-15lb. Casting weight 30-120g.
- Opportunist XTND+ - 12' 2.25lb
- Line rating 8-18lb. Casting weight 60-150g

big water

BIG WATER RODS

Designed to tackle fast-flowing water, long casts and powerful fish. We have harnessed the most modern carbon fibre and rod component technology to provide a supremely powerful and effective series of rods. The Big Water series boasts a 100% carbon 3k weave finish that generates desirable fish-playing performance with tip recovery that suits casting bigger feeders. The Minima-style Seaguide TDG guides are chosen for their lightness and durability, with a larger guide set than traditional rods, making them better suited for fishing with heavier lines. The DPS reel seat and slim, hard cork handle are extremely comfortable and user-friendly. What's more, each rod has a luminous painted tip section, aiding bite indication.

- Luminous painted tip sections
- Ceramic-free Seaguide TDG rod guides
- 100% 3k Carbon construction
- Progressive fish playing action
- DPS reel seats and hard cork handles

Glide

GLIDE POWER FLOAT RODS

If you love nothing more than feeling the thrill of a hard-fighting fish on the float then you will love the Korum Glide rod series. The rods are built using parabolic carbon in the butt and middle sections for great fish playing action, but use high-modulus carbon in the tip for fast recovery when casting and lightning reactions when hitting fast bites. The guides are sized to enable anglers to use Glide rods with fixed spool reels or centrepins, with a larger diameter guide-set that allows you to use stronger reel line. Finished with a quality full cork handle and stunning cosmetics, these rods are equally at home on rivers and stillwaters.

- Perfect for stick float and waggler fishing
- Lightweight parabolic carbon blanks
- Full cork handle
- Line rating – 4lb-12lb

Allrounder

ALLROUNDER QUIVER RODS

These classic quiver tip rods are genuine allrounders. They are supremely versatile for modern feeder fishing and traditional ledgering methods. Due to the three tip options, you have sensitivity for small species and cold weather fishing, as well as more powerful carbon tips for larger species on the Method feeder. Just as at home on rivers as they are on still waters, the Allrounder Quiver series has slim, lightweight blanks, responsive tips, a beautiful progressive action with high-calibre fittings, strong guides and hard cork handles.

- Complete with 1oz glass tip, 2oz glass tip, 3oz carbon tip
- Two-piece construction
- Classic finish
- Line rating 4-10lb
- Casting weight 15g-50g
- Max casting weight 60g

SNAPPER SWITCH

SNAPPER SWITCH REEL

This amazing reel offers high-calibre Japanese design in a super-smooth package delivering optimum line lay, drag force and gear-feeling. The Snapper Switch reels feature an all-metal body, NCRM carbon fibre rotor, CNC machined spool and self-locking screw-in handle. The 5+1 stainless steel ball bearings deliver silky and silent performance, whilst the balanced carbon rotor spins without wobble or vibration. The smaller sizes are perfect for finesse fishing techniques, whilst the largest size packs a punch when used for larger species.

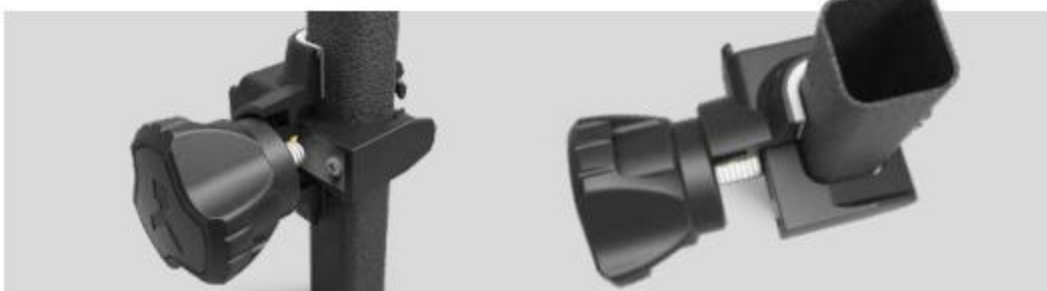

- 5+1 stainless steel ball bearings
- NCRM balanced carbon fibre rotor
- CNC machined spool and screw-in handle
- Soft touch free-feel handle
- Line capacities mm/m

SUPER STEEL BROLLY - 45"

Built on a strong and durable steel wire frame, this traditional style brolly can be used in the normal position, or by refitting the central pole to the angled rear position, a super stable tilted setup is achieved. Ground pegs are included to increase stability if necessary. It's lightweight, strong and is fitted with a 210D Nylon cover that has been fully taped sealed and reinforced at all potential wear points. The inner pole is constructed from extra thick walled aluminium to give the ultimate robust and durable brolly.

- 45-inch frame
- Weight 2.8kg
- Fabric around brolly points reinforced to stop wear
- 210D nylon cover with taped seams
- Extra strong steel wire frame

ANGLE TILT QUIVER REST

This Quiver version is a classic shape with a modern twist, offering adjustment for the angler who wants to fish accurately with a quivertip or feeder rod.

ANGLE TILT COMPACT REST

This Compact version is a great option when you want to strike quickly at shy biting species.

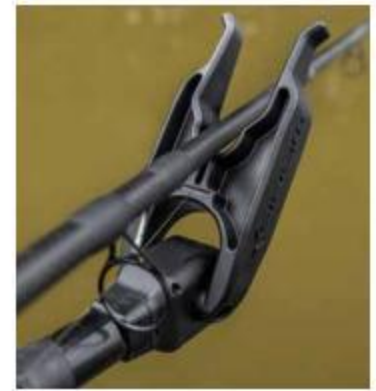

ANGLE TILT Y REST

This classic Y rest enables the angler to place the rod down easily, and strike freely. Ideal for float and feeder fishing.

ANGLE TILT SECURITY REST

This model features high reaching snag arms to prevent rod loss when fishing for powerful specimens.

This comprehensive range of rod rests offers everything the modern coarse angler needs for a wide variety of fishing disciplines. With a single push button, the rod rest itself can be angled perfectly to your desired position. All models feature a deep line groove, soft touch material, and angler-friendly designs that make fishing easy.

- Perfect for a wide range of angling disciplines

SUPALITE

SUPA LITE ROD SAVERS

This elasticated tip and butt protector can also be transformed into a skeleton rod sling, making it perfect for use with other rod holdalls, or as a carrying device. The D Loops enable you to clip on a carry strap and convert the Rod Saver, using it alone or in conjunction with other Rod Saver products. Tip and butt protection is offered by thick neoprene, whilst the adjustable elastic band enables you to use with multiple lengths of rod. The added neoprene rod wraps add yet more security.

SUPA LITE CARRY STRAP

This lightweight, padded shoulder strap is a fantastic multi-purpose luggage device. Can be used on almost any item of luggage, but also perfectly lends itself to our Supa Lite Rod Saver system, where elasticated tip and butt protectors in our Rod Saver series, can be clipped together to make a skeleton rod holdall system.

Made using our special Supa Lite waterproof material and high ridge webbing, it's built to last..

PHASE 1

Everybody has to start their angling journey somewhere and Korum's Phase 1 project provides high quality fishing tackle to help more new and returning anglers go fishing more often.

PHASE 1 SPOON NET 18"

This strong and lightweight spoon net uses a soft, free-flowing net with a special design to reduce the chance for hooks to get caught in the mesh. Made using a powerful frame and reinforced spreader block. A retaining tag at the base of the mesh also means you can transport the net easily between swims.

- 12x9mm aluminium frame
- Fish friendly quick drying mesh
- Retaining tag system

CODE	DESCRIPTION	BARCODE	QTY	RRP
K0380027	Phase 1 Spoon Net 18" / 45cm	5 056317 703122	5	13,99 €

FAST NET HEADS

The Fast Net has our own UK-designed net block mechanism that allows you to flick the net into a netting position with just one hand. The spring-loaded mechanism can be opened or closed using just your thumb. The net block itself also features an attachment point either for carabiners or magnetic attachments. The Fast Net Head can be used with any landing net handle with a 3/8" BSF universal thread.

- Fish friendly soft-feel mesh
- Nylon cloth perimeter with Korum logo
- 50cm mesh depth for short term fish retention
- Strong spoon net shape
- UK-designed spring locking mechanism
- Attachment point for carabiners or magnets

FLOATING FAST NET HEADS

The Floating Fast Net has our own UK-designed net block mechanism that allows you to flick the net into a netting position with just one hand. The spring-loaded mechanism can be opened or closed using just your thumb. The net block itself also features an attachment point either for carabiners or magnetic attachments. The Fast Net Head can be used with any landing net handle with a 3/8" BSF universal thread. It's floating frame and latex mesh makes it perfect for anglers float fishing in rivers, or very shallow water.

- Fish friendly soft-feel Latex mesh
- Nylon cloth perimeter with Korum logo
- Deeper mesh for short term fish retention
- Strong spoon net shape
- UK-designed spring locking mechanism
- Attachment point for carabiners or magnets

MEAT STOPS

10 per pack

4 x lengths of clear tubing that can be cut to size

The Korum Meat Stop system has been designed to improve the durability of meat hookbaits, providing a specially designed bait stopper with a number of unique characteristics. Firstly, the large flat surface stops softer meats from being pulled off the hair by small fish - it also provides an impact shield when casting or retrieving quickly. The gripper prongs keep your bait in top condition. Used in conjunction with the clear tubes, the small hook keeper locks inside the tube. The tubing also prevents the thin hair from cutting through the sides of meat baits.

CODE	DESCRIPTION	BARCODE	QTY	RRP
K0310120	Meat Stops	5 056317 703139	5	3,99 €

GLIDE STICK FLOAT SILICONE

Mixed pack of black silicone that can be cut to length for stick float fishing. Includes 2mm, 3mm, 5mm and 8mm sizes in 60mm lengths.

CODE	DESCRIPTION	BARCODE	QTY	RRP
K0310123	Glide - Stick Float Silicone	5 056317 708271	5	3,99 €

GLIDE FLOATS - AVON

The ultimate big fish Avon float. Uses strong 2.5mm thick alloy stems, a durable but super buoyant float and ultra-bright coloured tips. Designed for use with a Korum Glide Inline olivette around two feet from the hook, plus one or two droppers, either No4 or No6 shot. Our Flat Top design ensures the floats are way more visible than traditional dome-tops, giving you great visual indication on those longer glides. We recommend choosing your float based on the depth of water. Use roughly 1g for every 2ft of water as a starting point.

CODE	DESCRIPTION	BARCODE	QTY	RRP

GLIDE FLOATS - SPECI STICK

The ultimate big bait, big fish float for fast-running water. These floats are great when targeting big fish in shallow water, especially with larger baits on the hook. Uses strong 2.5mm thick alloy stems, a durable but super buoyant float and ultra-bright coloured tips. The visual indication from our Flat Top design is unsurpassed, great for quicker glides. The body has a line-through feature which allows you to slow down the float without it riding up too high in the water. A superb option for the specimen float angler.

SMOKESHIELD MONO HOOKLINK 50M

Specimen fish are hard fighting and fishing for them requires zero compromise on the strength and durability of your tackle. SmokeyShield Monofilament has been developed to provide extreme abrasion resistance, superior knot strength and a linear breaking strain that absorbs powerful lunges. The Camo finish blends with the environment perfectly. Based on our proven Barbel Reel Line construction, it's our strongest hooklength ever.

NEOTERIC WATERPROOFS

Having a jacket and trousers to withstand all weathers is important, but it's just as important that the material is resilient to all the other things we come into contact with whilst fishing. When roving, walking long distances, stalking or generally just trying to access difficult swims, garments that are hard-wearing are essential. For this reason the Neoteric fabric is subjected to both abrasion and tensile strength testing. This provides the perfect blend of durability, water-resistance and breathability.

- Lightweight, small pack down size
- Waterproof rating: 5000mm
- RET Breathability: 5000mm
- High endurance material
- Extreme tensile strength

ZT RODS

The ZT series has been designed in conjunction with our core team of consultants across Europe to provide a supremely fast and sensitive range of spinning rods. Made to tame big perch and zander, the ultra slim, lightweight carbon fibre blanks have very responsive tip sections, helping you impart subtle action when using finesse techniques like dropshot and Carolina rigs. The Zebra Tamer striped carbon weave finish provides a steely backbone for setting hooks, perfect when fishing with weedless setups. A supremely balanced offering that suits the bank-angler perfectly, Snapper ZT provides premium level rod action for casting baits accurately, and fishing with heightened levels of feel.

- Zebra Tamer carbon weave finish, approved by Tim Janssen
- Duplon and 3A cork handle, shaped for maximum feel
- Sensitive, responsive solid carbon tip sections
- Perfect for dropshot, Carolina rigging and other finesse methods

SO SOLID

SO SOLID RODS

The So Solid range uses solid carbon tips to ensure an ultra-fast action with unrivalled sensitivity. Even the most gentle bites will register, especially when using very light lures. Not only do solid tips provide great feedback, they are also a better design when using ultra-light fishing techniques like Dropshot, Carolina rigs and small crankbaits. What's more, the solid tips are mega durable, withstanding much more abuse than standard hollow tip rods. Features soft touch EVA grip with carbon 'sensitivity' spots for your hands to feel bites even sooner.

Trigger predators into a feeding response with the gentle clicking noise created by our Clicker Clip-ons. Not only are these a reliable, easy to use attachment system for lure fishing, this version of our Clip-ons features two high frequency glass beads, which click together during use. This ticking noise is known to activate predators. Made from robust stainless steel, these are a must when fishing with cold hands in the winter.

ILLUMIN 8 BRAID 125M

Utilising the most advanced PE materials and technology in braided lines we bring to you the incredible ILLUMIN 8. It has a super smooth surface that glides through rod rings silently. Its 8-strand construction provides a round, tangle-resistant profile. The advanced PE filaments provide higher knot strength than ever before, with a consistent and true diameter that helps with abrasion resistance and tensile performance. The soft feeling aids with casting, whilst the hi-vis lime green finish gives visual indication. A truly remarkable braid for all kinds of lure fishing.

Bruiser Lobworm Firefly

FLOATEX SQUIRMZ

Squirmz are a durable floating lure that enables you to fish with the popular finesse 'Ned Rigging' technique really effectively. The FLOATEX material is much softer than normal lures, yet resists any cuts and tears due to its stretchy compound. This bait is incredible – retrieve it slowly and let the Squirmz wriggle, twist and shake.

Long pauses can bring great rewards, as the Squirmz stand straight up off the bottom due to their buoyancy. On the pause, the Squirmz tail lifts up, creating a super natural attraction that imitates a wide variety of prey – from small baitfish, to crayfish standing in the defensive position. The chevron body design creates a darting action big predators cannot resist.

CODE	DESCRIPTION	BARCODE	QTY	RRP

Bruiser Lobworm Firefly

FLOATEX REGGIEZ

Reggiez are a durable floating crayfish imitation that enables you to fish with the popular finesse 'Ned Rigging' technique really effectively. The FLOATEX material is much softer than normal lures, yet resists any cuts and tears due to its stretchy compound. This bait is incredible – retrieve it slowly and let the claws of the Reggiez wobble, wiggle and shake.

Long pauses can bring great rewards, as the Reggiez stand straight up off the bottom due to their buoyancy, just like a crayfish standing in the defensive position. On the pause, the claws wave naturally, creating a subtle presentation for pressured fish. The body also features a natural hook slot, for weedless rigging.

CODE	DESCRIPTION	BARCODE	QTY	RRP
Z0660074	Floatex Reggiez 7.5cm - Bruiser	5 056317 708240	5	3,75 €
Z0660075	Floatex Reggiez 7.5cm - Lobworm	5 056317 708257	5	3,75 €

FLOATEX

4 per pack

BUOYANT

The jigheads in the ready-to-fish packs of Squirlyz are size 1 with 5g heads. They cast like a bullet and create a nose-diving motion that perfectly suits buoyant lures, helping them stand up off the bottom.

3 per pack

SQUIRLYZ

Squirlyz are a durable floating lure that enables you to fish with the popular finesse 'Ned Rigging' technique really effectively. The FLOATEX material is much softer than normal lures, yet resists any cuts and tears due to its stretchy compound. This bait is incredible – retrieve it slowly and let the Squirlyz tail twist and flutter.

Like other FLOATEX lures, Squirlyz stand straight up off the bottom due to their buoyancy, but it's the design of the tail that makes it truly special. The curly tail features a pintail spine, creating maximum motion with minimal movement. The chevron body design creates a darting action big predators cannot resist.

CODE	DESCRIPTION	BARCODE	QTY	RRP

3 per pack

BUOYANT

The jigheads in the ready-to-fish packs cast like a bullet and create a nose-diving motion that perfectly suits buoyant lures, helping them stand up off the bottom.

GONKS

Gonks are a durable floating lure that enables you to fish with the popular finesse 'Ned Rigging' technique really effectively with a gudgeon or goby imitation. The material is much softer than normal lures, yet resists any cuts and tears due to its stretchy compound. This bait is incredible – retrieve it slowly and let the Gonks wriggle, twist and shake.

Long pauses can bring great rewards, as the Gonks stand straight up off the bottom due to their buoyancy and the special design of the matching Squirm Head jig. On the pause, the tail lifts up, creating a super natural attraction that imitates a wide variety of small fish species.
