NEW **SPRO**
PROVEN TO CATCH
PREDATOR 2022

MORE THAN 50 PAGES WITH BRAND NEW PREDATOR PRODUCTS!

#ProvenToCatch 2022

The true predatory specialist angler knows that SPRO lures will be successful on every water! With the wide experience of many successful anglers from all over Europe and SPRO's dedicated product development team, unique lures are designed in-house with unprecedented catching power. Of course equipped with the best, Gamakatsu hooks!

As a passionate predatory angler you can go after sweet and salty predator products with full fishing power in 2022 with, among other things, the following products:

RODS & REELS

- 11 new finesse models in the **SPECTER** superseries...
- Price-quality super attractive baitcaster series under the name **RUFF**,
- **DASSAULT**, one hell of a spinning reel!

HARD LURES

- No polder pike that can let it pass in 2022: the **IRIS Flanky 90**,
- **New catching IRIS colors: Hot Tail and Northern Pike**,
- The one and only **Fat IRIS**, now also in **5cm**, deep and shallow,
- **IRIS Thrillseeker** and **Ambush Spinnerbait** now too available in **baby version**,
- **ASP Jiggin' Spinners**, the one and only, now available in 2 new series.
- Finally and by popular demand: **Ripple ProFighter DD**,
- 4 brand new series of **IKIRU** plugs.
- 11 pages of **USA hard lures!**

SOFT LURES

- **IRIS Shocktail**, in addition to 30cm now also in polder and big water format!
- **IRIS PopEyes**, but **To Go!**
- **UV Lemon Lime**, the color of 2022 in **IRIS V-Power** and **PopEye!**
- **IRIS V-Power**; now also in **8cm!**
- 3 sizes of **IRIS The Frog**,
- 3 new **SCENT Series** finesse models: **Insta Hog 90**, **Insta Shad 90** and the **Insta Worm 90**.
- 4 pages with **USA soft lures!**

AND MORE...

Jig heads, Trolling Blades, Screw In Fins, Screw In 360 Rigs, bags, sheaths, tools, nets and clothing...

FROM THE USA

In addition to 13 pages of beautifully catching lures, you will also find a very solid range with **smart snaps**, **swivels** and **rings** and the **Finesse Braid** is certainly not to be missed.

Finally, for those who like to fish with softbaits, we have added a **JIG & RIG CHART** for inspiration! On this card you can see how various softbaits can be perfectly combined with the right jig head for various techniques and fish species!

SPRO wishes you wonderful fishing adventures again in 2022! And would you like to share those beautiful moments with us? Feel free to tag us with **#GoSpro** and **#ProvenToCatch!**

SPECTER

ROD SERIES

SENSITIVE LIGHT X-FAST

The SPRO Specter Finesse Predator rod range is our answer to the demand for a wide range of specialist rods for virtually all lure disciplines. The Specter rods excel in action, sensitivity and weight as well as quality and looks. The aim was to develop a high-end rod range at a competitive price, resulting in light, thin, powerful and yet extremely sensitive rods. The blanks are coated with transparent lacquer to protect the raw carbon from the elements, which together with the silver and gold details gives the rods a luxurious look.

Finally, the entire range is equipped with single-legged stainless steel guides, cross-woven carbon to reinforce the crucial parts and a split handle with high-quality EVA Grips. The rods wear our yellow S with pride!

The yellow series stands for the Finesse Spinning Rods and has been expanded with 11 new models to 30 different models, making it the most extensive subseries. You will find wonderfully light rods for subtle crank fishing up to and including rods that allow you to fight the thickest sea bass.

**"EXTREMELY SENSITIVE,
FAST AND LIGHT!"**

FINESSE SPIN

SPECTER FINESSE SPINNING L

NEW

These rods have a light, but extra fast action and are perfect for a large variety of finesse techniques such as spinning, jigging, dropshotting and furthermore a great choice for those that like to fish Carolina and Texas rig. The sensitive tip combined with a parabolic and strong blank, make this rod the ideal finesse rods.

Code	Model	Length	Transp. Length	Weight	C.W.	Sect.	Nr. of Guides	RRP/ CU
2510-244	Finesse Spin 242L - X-Fast	2,42m	1,24m	119g	5-14g	2	9	€ 84,95
2510-270	Finesse Spin 268L - X-Fast	2,68m	1,38m	132g	5-14g	2	9	€ 89,95
2510-271	Finesse Spin 268L - X-Fast	2,68m	1,38m	132g	7-21g	2	9	€ 94,95

SPECTER FINESSE SPINNING ML

NEW

The Specter Finesse "medium-light" range comes with more backbone than it's lighter brothers, which makes these rods perfect for fierce fighters and slightly heavier lure fishing techniques where more backbone is required, such as fishing with small crankbaits. Besides that these beauties are extremely versatile and depending on personal preferences of the length great for spinning, jigging, dropshot fishing and the popular Carolina & Texas rig technique.

Code	Model	Length	Transp. Length	Weight	C.W.	Sect.	Nr. of Guides	RRP/ CU
2510-294	Finesse Spin 290ML - X-Fast	2,90m	1,48m	156g	10-28g	2	10	€ 109,95
2510-295	Finesse Spin 290ML - X-Fast	2,90m	1,48m	155g	14-37g	2	10	€ 124,95

SPECTER FINESSE SPINNING M

NEW

These Finesse "medium" rods are fast! Extra fast, so you get all the sensitivity and "feedback" from your lure you need. The higher casting weights makes them great for fishing with all kinds of lures, and a great performing rod if jigging with softbaits is your style.

Code	Model	Length	Transp. Length	Weight	C.W.	Sect.	Nr. of Guides	RRP/ CU
2510-220	Finesse Spin 215M - X-Fast	2,15m	1,11m	121g	14-37g	2	7	€ 94,95

SPECTER FINESSE SPINNING MH

NEW

If you require real backbone and stopping power you can trust these rods. X-Fast action and increased length for maximum cast performance and control during the fight. On fresh water these are great lure rods targeting pike and big zander and for those who like to fish on the shore these rods are a perfect choice for seabass, pollack and all kind of powerfull fish where a strong and sensitive rod is preferred.

Code	Model	Length	Transp. Length	Weight	C.W.	Sect.	Nr. of Guides	RRP/ CU
2510-221	Finesse Spin 215MH - X-Fast	2,15m	1,11m	124g	18-48g	2	7	€ 99,95
2510-234	Finesse Spin 228MH - X-Fast	2,28m	1,11m	141g	18-48g	2	8	€ 109,95

SPECTER FINESSE SPINNING H

NEW

The most powerful Specter spinning rods in the range. Available in various lengths with a C.W. of up to 68 grams you can cast your lures to the horizon. These well balanced and super sensitive rods will become a favorite amongst anglers, targeting strong fighting fish such as pike, seabass and other species which need to be controlled and stopped. The Specter Spinning Heavy gives you all the power you need.

Code	Model	Length	Transp. Length	Weight	C.W.	Sect.	Nr. of Guides	RRP/ CU
2510-235	Finesse Spin 228H - X-Fast	2,28m	1,11m	143g	24-68g	2	8	€ 114,95

RUFF BC

RUFF BC RODS & REELS

The Ruff range of rods makes up our dedicated lure fishing baitcast series. Ruff rods are tough, thanks to the short split handle with durable rubber cork elements, low profile guides, thick grip reel seat, low profile hook keeper and 24T powerful carbon blanks. Ruff rods are finished off with an aggressive smoke effect along the handle section of the blank. When fished together with the Ruff reel, the result is a powerful baitcast combination with powerful looks to match.

RUFF BC VERTICAL

IRIS FLANKY 90

IRIS SERIES **UNIQUE IN-HOUSE DESIGN** **NEW**

"SHALLOW WATER PIKE SIMPLY CAN'T LET IT SWIM BY!"

As the name already suggests, the IRIS Flanky is a true flanker. It flanks seductively and on each side, creating an incredible action no predator fish can resist. The IRIS Flanky has a slow floating action, which allows you to retrieve it very slowly, and maintain the required depth at the same time. A very effective technique in the wintertime! Equipped with oversized IRIS eyes, a tracking spot on top, extra strong splitrings and worldclass Gamakatsu trebles.

Check IRIS Flanky's action here!

IRIS SERIES UNIQUE IN-HOUSE DESIGN **NEW**

FAT IRIS 50 & FAT IRIS 50 CR

One of the most famous hardlures in the IRIS family has another relative. The Fat IRIS 5cm version is a unique and very easy to use crankbait for a wide range of predator fish species. From Northern European pike to Black Bass in Southern Europe...the Fat IRIS catches them all! The Fat IRIS 50 casts like a dream and runs approximately 50cm deep on a steady retrieve. Slow floating action to trigger more strikes and obviously equipped with razorsharp Gamakatsu trebles.

"THE ONE AND ONLY NOW IN 5CM!"

10g, 5cm, #6, SF

Crankbaits are hot! Especially in the warmer months of the year when there's plenty of small baitfish, nervous and erratic crankbaits can do the job, when other lures simply can't attract a bite. For these circumstances, we've launched the Fat IRIS 50 CR. CR stands for Crank. This fat and compact hardlure has the same good characteristics as it's shallow running brother, but the CR runs deeper, with a more nervous and erratic action, which trigger the fish when they hunt a little deeper. A great all-round lure which runs up-to 3 meters.

Check Fat IRIS 50's action here!

#PROVEN TO CATCH

IRIS BABY THRILLSEEKER

Loaded with all the unique features of its bigger brother, but in a small, light and compact design specifically made for other predator species such as Perch, Zander, Bass, Trout, Asp, Ide etc. The Baby Thrillseeker can be used where other lures simply can't be fished. Such as water with heavy weed, rocky area's, overhanging branches, reed beds etc. The Thrillseeker will go through it! It's noisy and nervous action creates lots of flash and vibrations under water, which no predator fish can resist. You can decorate the #2/0 Gamakatsu hook with a small softbait as well to make it even more attractive and create your own unique Thrillseeker.

IRIS BABY AMBUSH SPINNERBAIT

Small spinnerbaits can be very efficient lures when predator fish are hunting for small prey. The vibrations and flashes created by the blade in combination with the oversized IRIS eyes and an attractive moving skirt, appeals to all predators which have small baitfish on the menu. The Baby Ambush spinnerbait can be fished through heavy vegetation and obstacles with ease. Put a small softbait on the Gamakatsu #2/0 spinnerbait hook to make it even more attractive!

RIPPLE PROFIGHTER 145 MW & DD

UNIQUE IN-HOUSE DESIGN

NEW

The Ripple Profighter is a one of a kind with its unique rippled body profile. It's not only a cool feature, but it actually works on the nerves of many predators, provoking strikes! The segmented body has a truly life like swimming action, and this crankbait is super easy to fish. With its weight of 41 gram it's great for casting on a medium heavy spinning rod or trolling behind the boat. With an average running depth of 80 up to 200 cm this all-round lure is super versatile, from small and shallow canals up to big rivers.

The Ripple Profighter LL (long lip) will dive easily to 4 meters when trolled behind the boat or up to 3 meters when it's cast & retrieved. A great choice when predators such as pike and big zander are closer to the bottom or need to be found in deeper water. The ribbed body profile, heavy internal rattle and seductive swimming motion creates loads of attraction under water no predator can resist.

IKIRU SHAD 70SL & 70LL

NEW

A built in 'weight transfer system', slow floating action and a perfect baitfish imitation are only some of the features which make the Ikiru Shad 70SL a great choice for active spin fishing with a shallow running hardlure. A great lure for cast & retrieve fishing, but it truly becomes a fish magnet if you use it as a twitchbait with extra twitches from your rod tip and sudden stop & go moments.

IKIRU MINI CRANK 38F SL SH

NEW

This shallow running, short lipped Ikiru Mini Crank 38 is fitted with high quality barbed single hard bait hooks in size #6. The small size and erratic action of the Ikiru Mini Crank makes it the perfect choice for targeting trout and chub on small streams and stillwater shallows.

IKIRU SURF DAWQ 115F

NEW

As the name already suggests, the Ikiru Surf Dawq is a true surface and topwater lure. Dawq refers to its 'walk the dog' action, which means that the Ikiru Surf Dawq surfs perfectly from left to right on the surface with each twitch of the rod tip. Waiting for that fresh or saltwater monster which nails it explosively at the surface!

IRIS SHOCKTAIL 200/300/400

Completely re-designed and equipped with reinforced eye sockets, stinger positions on the belly and available in 3 sizes, from a perfect all-round 20cm size all the way up to a monstrous 40cm for those freshwater monsters from the deep. The Shocktail is the lure for 'specimen hunters' and it's predecessor has already proven that this lure actually catches really big fish. The big 3D IRIS eyes for a super realistic appearance, stabilizing pectoral fins and a unique seducing tail action are some of the key features from this softbait. Get out there, and go after that monster!

IRIS SERIES

UNIQUE IN-HOUSE DESIGN

NEW

Zander and Perch specialists know that no-action softbaits can be the key to success when it comes to passive predators. The subtle and gentle presentation of a true v-tail shad can trigger the senses of big and cautious predators when other softbaits are being ignored. To help you out in such situations SPRO has designed and developed the IRIS V-Power softbaits. With its rounded body, oversized pectoral fins and extra flattened tail fin, the V-Power has a balanced and one of a kind sink rate. Rigged on a jig or dropshot rig this softbait has a slow motion sink rate and a very natural action. Combined with attractive colors and built in UV activators this softbait could be the lure of choice in difficult situations.

IRIS SERIES UNIQUE IN-HOUSE DESIGN NEW

15^o,cm 35^o,gr

12^o,cm 20^o,gr

10^o,cm 10^o,gr

IRIS The Frog is a super realistic softbait imitation of a real frog. It has a super attractive action, even the legs start to flutter at a very low speed. Available in 3 sizes: 10, 12 and 15cm. The hooksize indicators on the back make it super easy to rig on a SPRO jighead, but The Frog is also perfectly suitable for weedless fishing with a big Gamakatsu Offset or Wormhook. Available in a great pallet of fish catching color designs.

SCENT SERIES INSTA HOG 90

UNIQUE IN-HOUSE DESIGN **NEW**

Scent Series Insta Hog is one of a kind creaturebait and specially developed for European waters and fish species, such as Perch, Zander and Bass. The Insta Hog is designed with a wide, but still very flat body profile which allows you to use smaller and lighter hooks. In combination with a segmented and super flexible body which is injected with our special formula, this softbait will increase your hook setting big time. Made from a soft but strong, floating material, the Insta Hog's legs and curls will rise up attractively under water with each stop, making it the perfect prey.

SCENT SERIES

SCENT SERIES INSTA WORM 90

UNIQUE IN-HOUSE DESIGN **NEW**

Worms always have had a great effect on predatory fish. Especially big Perch, Zander, Black Bass and even Seabass simply love worm imitations. SPRO launches the "worm snack" with the Scent Series Insta Worm. The body is equipped with 28 ridges, which cause seductive vibrations underwater and make the softbait more supple which makes it easier for the fish to inhale the softbait. The big head and extended "saddle" of the Insta Worm allows you to rig the softbait in a versatile way. Carolina, Texas, Dropshot and even traditional jugging are all possible with the Insta Worm. Powered with our I.T.F (Instant Trigger Formula) and all made from an environment-friendly material.

SCENT SERIES INSTA SHAD 90

UNIQUE IN-HOUSE DESIGN **NEW**

Finesse fishing is hot! However, there are not many paddle tails available which are perfectly suitable for various Finesse fishing techniques, and still have a perfect action / hook ratio. The Insta Shad can be used on a dropshot rig, rigged on a offset hook (Carolina or Texas style), on a ordinary jighead or stand-up. Regardless of the technique you choose, the Insta shad will swim with it's specially designed slim body and tail design. Made from soft and floating material and injected with our I.T.F. formula this cool softbait might be your favorite all-round paddle tail softbait in the tacklebox.

SCREW IN 360 RIG

These rigs are designed for use when targeting pike and other large predators. A set of multi-barrel swivels connects world class Gamakatsu Treble 13 treble hooks. The swivels offer incredible protection against teeth and allow the hooked fish to twist continuously around the rig during the fight, thus limiting line twist and ensuring a consistent hook hold. Depending on size the rigs come with a set of pins that can be pushed into the bottom or top of your softbait, the pins allow just enough hold to stay in place while fishing but will release from the lure during a fight. The lead head can be simply screwed into the front of your chosen soft lure.

E POP 80

NEW ESSENTIAL SERIES

E POP 80 serves as the popper bait providing anglers a perfect bait for that aggressive topwater bite. The E POP 80 has an extremely loud popping action with a loud knocking sound - calling in fish from a distance. The bait is designed to cast easily and can be walked back to the boat, creating life-like action that bass can't resist. Paired with Gamakatsu's #4 treble hook on the front and a #4 Gamakatsu feather treble hook on the back, anglers are sure to hook up when an aggressive bass blows up your bait.

- 80 mm; 1/2 oz.
- Hooks: Gamakatsu #4 Treble (Front) & #4 Feather Treble (Back)
- Depth: Top Water

HUNTER CRANK 65 SB

NEW ESSENTIAL SERIES

65 cm **14** gr **SF** **15** cm

Hunter 65 SB brings the versatile square bill bait into play. Square bill baits are notorious for getting the biggest of bass to strike as they deflect off the thick cover. It's erratic hunting action and loud knocking sound gets the bass's attention, making this bait a must-have for any bass angler. Armed with the world's sharpest #4 Gamakatsu treble hooks, you will be able to count on solid hook-sets to wench bass out of the heavy cover. With a dive curve of 3-5 ft., this is the perfect bait to fish over rocks and timber.

- 65 mm; 1/2 oz.
- Hooks: Gamakatsu #4 Treble Hooks
- Hunting Action
- Depth: 3-5 ft.

THIS IS HOW YOU MAKE A PERFECTLY RIGGED SOFTBAIT

JIG & RIG CHART

With this table you can easily make the perfect rigged softbait yourself, matching your fishing technique and water. First choose the fish species that you aim for and then determine with which technique you want to do this on which type of water. When you have determined the size of your lure, you can see exactly what kind of jig head and, if necessary matching stinger, you can use for the perfect mounting.
