

Sebile®

PASSION.

INNOVATION.

PERFORMANCE.

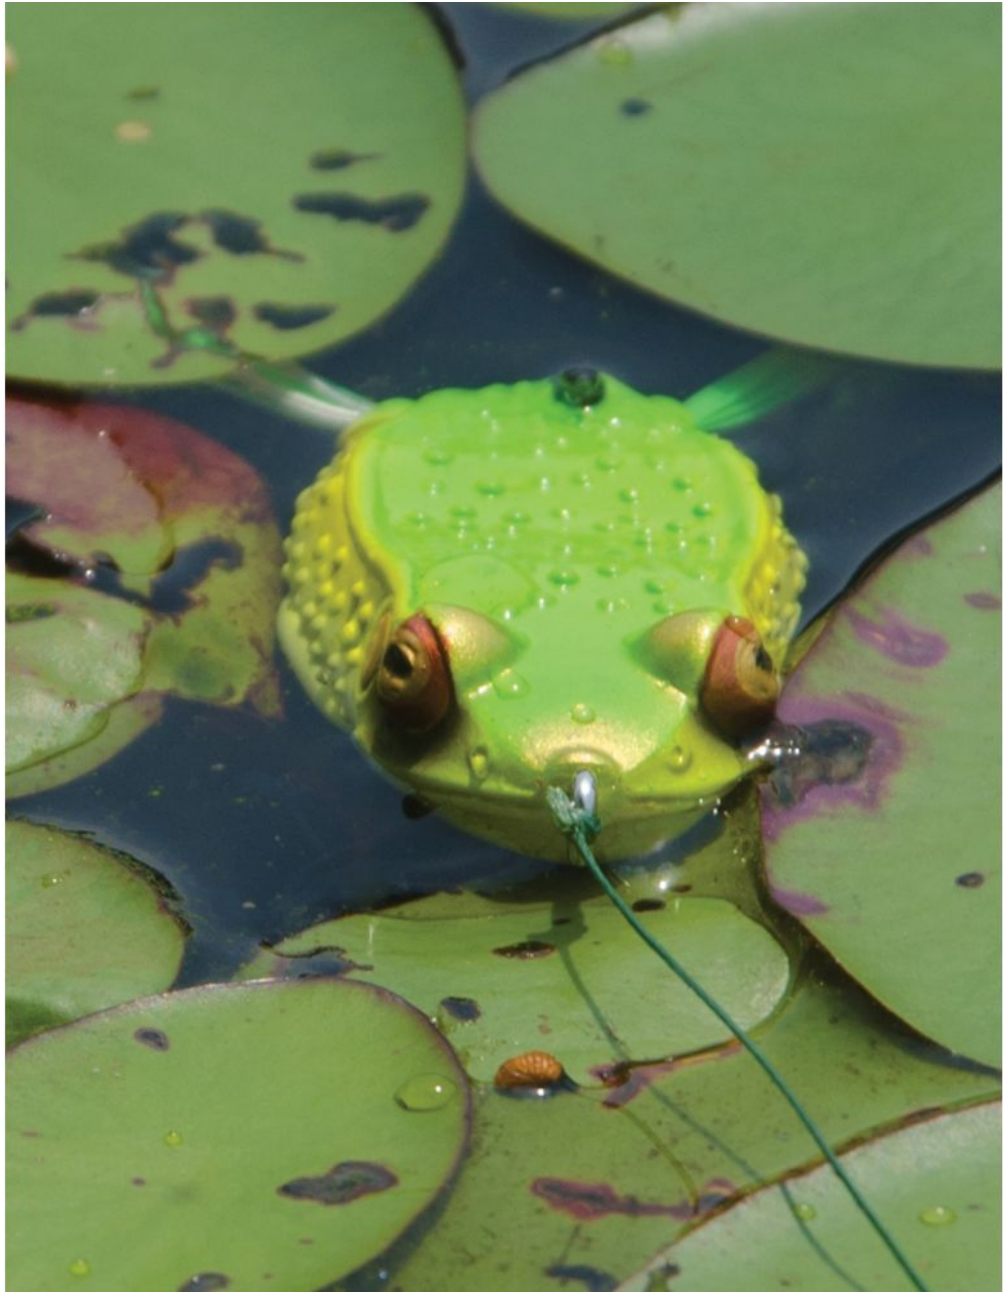

Words that characterize **SEBILE**[®]. Every lure is built to exacting standards to complement every angler's ability. From the highest quality hooks and components to lifelike features and finishes, each lure delivers ultimate performance.

XTERNAL
WEIGHT SYSTEM

Sebile's **Xternal Weight System** is a customized weight situated on the outside of the bait. The weight is made of a Zinc alloy, and is the perfect density to achieve ideal swim action, casting distance and tracking. Equipped with premium black nickel hooks and weighted for pinpoint swim action characteristics, Sebile Action First baits will be your go to baits for targeting Bass in all conditions.

Gravity
HOOK SYSTEM

On the Sebile Pivot Frog the **Gravity Hook System** allows the weighted, single wide gap hook to freely rotate positions for fewer snags while increasing hook-up and landing ratios.

BULLCRANK™

The Sebile Bull Crank is offered in two sizes and depths and will be your go-to search bait in shallow to medium waters. When fishing shallow, there's no better bait than the shallow lipped Bull Crank while it swims and deflects off structure. The medium-lipped Bull Crank is ideal in open water expanses and deeper structure when searching for hungry bass.

BULL MINNOW™

The Sebile 5" Bull Minnow is a wider action, floating minnow bait ideal for power fishing (jerking/cranking) situations when bass are active. The Bull Minnow is designed to be versatile. As a power jerkbait, the Bull Minnow is designed to handle aggressive fishing by anglers. Unlike other humpback-shaped minnows, the Bull Minnow can be cranked at higher speeds while remaining stable and tracking true!

FLAT BELLY WALKER

The Flat Belly Walker is just what the name implies, a walker style bait designed with a flat belly. Available in 2 sizes and 10 colors, the Flat Belly Walker was built on the principle of a surfboard. This hydrodynamic design is ideal on calm days, but fantastic when water's rougher and a stable body is needed to work efficiently.

PIVOT FROG™

Sebile's Pivot Frog adds much needed innovation into the hollow frog category. Using the Gravity Hook System, a pivoting single wide gap hook, allows the hook to freely rotate position. This allows for fewer snags and increases hook up and landing ratios. Two hook systems are difficult to hook bass while the Pivot Frog focuses all the force applied by the angler on one hook point!

SWINGTAIL MINNOW™

The Swingtail Minnow is a floating jointed minnow bait offered in three sizes and nine colors. Ideal when fishing shallow water, jointed baits cause bass to react, especially when paused intermittently. Cast the bait and retrieve to desired depth pausing occasionally and allowing the bait to slowly float to the surface. After the pause time and retrieval speed to match the fish's activity level.
